EAT WELL. TASTE MORE.

POSITIONING

Healthy food. *Exceptional* taste.

The Menu proves that eating well and craving more are the same thing. Flavour is the reason people choose us — and the reason they come back.

أكل صحي. نكهة استثنائية.

01 · Flavour leads

Taste is the headline, health is the proof.

02 · Fresh, never preachy

Clean, confident and generous — no diet-culture tone.

03 · Premium, approachable

Global-brand polish with a neighbourhood warmth.

the — editorial serif, lowercase

menu — custom lettering, sculpted & soft

Tagline — spaced capitals, +16% tracking

The wordmark is bespoke lettering, not a typeface. Never retype it — always use the supplied artwork. Distinguishing gestures: the flowing foot of the **m**, the angled bar of the **e** and the tail of the **u**.

03 Clear space & minimum size

المساحة الآمنة والحد الأدنى

x = x-height of “menu”. Keep ½x free on all sides, in every application.

MINIMUM SIZE

Below 150 px the tagline becomes illegible: switch to the wordmark without tagline.

* CMYK values are starting-point conversions. Match to Pantone / press proofs before print; lime is outside the CMYK gamut and will print duller than on screen. Apricot is a proposed accent — not part of the original mark.

The m — graphic device

الحرف m كعنصر بصري

Oversize and crop the m so it bleeds off the edge. Alternate aubergine and lime. Use as packaging wraps, bag sides, menu covers and social backgrounds — always paired with, never instead of, the logo.

Flat illustrative mock-ups — replace with die-lines. Lime stock + aubergine ink for boxes; aubergine kraft + ivory/lime for bags.

Signage

اللافتات

DAY · beige stone · raised aubergine letters

NIGHT · metal fascia · lime face-lit letters

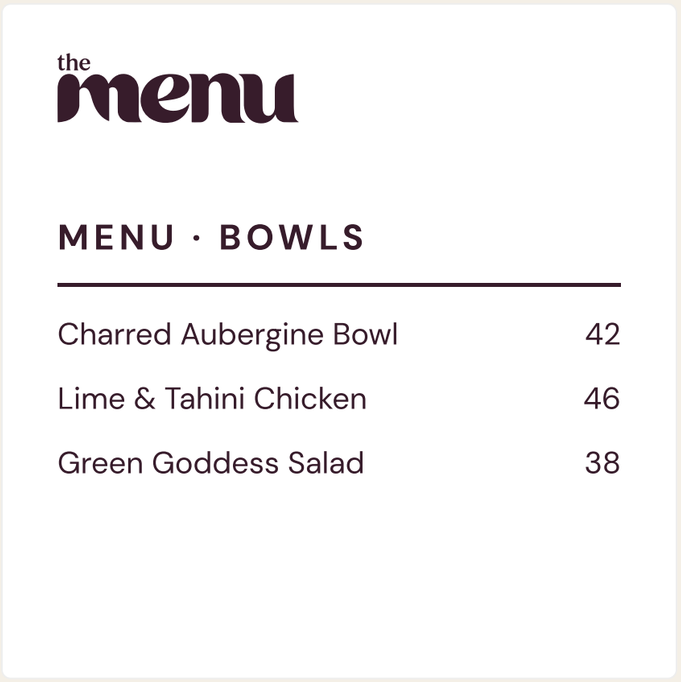

Rule: aubergine letters only on light stone; on the dark vertical-slat metal use lime (face-lit) or ivory. Recommended build: 3D letters, 40–60 mm return, simplified inner joints, min. 12 mm stroke at the thinnest point of the **m** foot.

Avatars: monogram only. Post templates: lime or aubergine field, logo bottom-left, one bold line of copy. Menu: aubergine on ivory, prices right-aligned.

Next steps

الخطوات التالية

01 Designer refinement of the wordmark curves (hand-tuned Béziers) and final kerning.

02 Arabic wordmark — a companion lockup built with the same sculpted logic.
